

Environmental Advisory Consulting Services
July 11, 2013
Addendum #1

- Q:** Does the restriction against doing environmental work for prospective purchasers (i.e. 7.0 of the RFP) prevent the selected firm from doing environmental work for a prospective purchaser for any and all properties; or does it only prevent doing environmental work for the prospective purchaser in connection with the specific Fort Monmouth property the prospective purchaser seeks to purchase from FMERA?
- A:** The restriction against doing work for prospective purchasers applies only to doing work for the prospective purchaser in connection with the specific property the prospective purchaser seeks to buy from FMERA. (This would include Monmouth County, if and when they submit a proposal to purchase property or enter into negotiations with FMERA for the purchase of property.)
