

YOUR GOALS. OUR MISSION.

Industrial Hygiene Services

INNOVATIVE SOLUTIONS FOR ALL YOUR INDUSTRIAL HYGIENE NEEDS

T&M's Health, Safety and Industrial Hygiene personnel are committed to protecting the health and safety of people in the workplace and the community. T&M provides assessment and corrective action services for a variety of facility industrial hygiene concerns commonly encountered in both commercial and residential building environments. We offer a staff of trained professionals that include industrial hygienists, biologists, engineers, and environmental scientists that are able to assist clients in identifying, evaluating and mitigating potential risks associated with a variety of chemical and physical exposures including asbestos, lead, and mold.

Members of our team maintain professional certifications that include: Certified Industrial Hygienist, Certified Safety Professionals, Professional Engineers, Licensed Asbestos Building Inspectors and Management Planners, Licensed

Lead Building Inspectors and Risk Assessors, Certified Hazardous Materials Managers, and Certified RCRA and DOT hazardous material professionals.

How We Can Help You

- Chemical and Particulate Air Exposure Monitoring
- Noise Surveys and Mapping
- Asbestos Inspection, Engineering and Management
- Lead-based Paint Inspection, Risk Assessment and Remediation
- Mold and Moisture Intrusion Surveys
- Indoor Air Quality (IAQ) Investigations including Sick Building Syndrome (SBS) Surveys
- Qualitative Exposure Assessments
- Ventilation System Evaluations
- Industrial Hygiene Employee Training
